

Bespoke Unit's Guide To The Motorcycle Boot

Bespoke Unit's Key Motorcycle Boot Facts

- Invented by Frye in the 1860's as a boot for the U.S. Cavalry, was adapted for motorcycle use in the 1930's
- Two most common types for non-motorcyclists are the Engineer boot and the Harness boot

What Makes It A Motorcycle Boot?

- A moto boot is any boot made in the style of an engineer or harness boot. They typically have shin-to-knee-height shafts, buckles at the ankles, and are made from hard-wearing leathers

Motorcycle Boot Style

Below is our "formality slider" for the moto boot and its casual and formal variations

ARCHETYPICAL; BLACK OR BROWN ENGINEER OR HARNESS BOOTS

Outfits	Beach or Pool	Weekend Errands	Brunch or BBQ	Business Casual	Date Night	Business Dinner	Formal-ish Wedding	Job Interview	Business Professional	Tuxedo
✓ = YES ○ = Maybe ✗ = NO	✗	✗	○	✗	○	✗	✗	✗	✗	✗

- A very casual boot, these should only be worn with jeans or leather riding pants (if you actually ride motorcycles)
- Black leather is the standard but fashion brands have branched out into brown and different suede colors
